## What to compare

1. Check the fine texture in the coloured panel at 200% zoom.
2. Search for SAMPLE-2026 in the original and compressed files.
3. Confirm page count and page dimensions remain unchanged.
4. Compare file sizes using the same original at each setting.

Small text: SAMPLE-2026. Compression rasterises this selectable text.

This fixture demonstrates one input; results are not typical savings for all PDFs.
